November All-Staff Meeting

The Vice President of Student Affairs will share the agenda and updates for the upcoming semester. You will also have the opportunity to provide feedback on your campus experience, any issues you may have encountered, and suggestions for improvements.

COVID-19 Vaccines for Children and Teens

The University of Utah is offering the COVID-19 vaccine to children ages 5-11 years. The vaccine is available at the University Health Center. Students, faculty, and staff are encouraged to get vaccinated to protect themselves and their community.

Intersexuality & Missing and Murdered Indigenous People

The panel explores the reality of missing and murdered Indigenous People from an intersex perspective. The panelists bring in various experiences and knowledge to provide a comprehensive understanding of the issue.

Nominations for Black Faculty and Staff Awards now open

The Black Cultural Center honors Black faculty and staff with the Black Faculty and Staff Awards each year. The awards recognize the contributions of outstanding Black faculty and staff members who have demonstrated excellence in their work.

Campus Rec Happenings

The Fit3D scanner is quick, easy, and private. The scanner provides a non-invasive body scan that can track all your measurements, body composition, and even your posture. You can see your progress in only 35 seconds!
