

## **ASB Pre & Post 2010**

**Population for survey:** 2010 ASB participants, site leaders, staff partners, student coordinator and advisors

**Number of Respondents:** 99 (pre) and 97 (post)

### **Summary of Key Findings:**

- The expectations of program participants continue to be understood and met
- ASB provides a meaningful introduction to service, social issues, the location and functioning in a group
- Participants in the ASB program find spending a week with peers and the bonds that develop important

### **Actions Taken:**

In light of recent evaluations, it is clear that ASB is a successful program. Two new trips have been established for next year and current data set a lofty set of expectations for these new trips. Advisors are currently exploring ways to discuss the role of service in higher education with participants in an effort to reinforce the values of the University in the program.
