

National Student Exchange Longitudinal Survey

Brief description of project:

A longitudinal student was done to assess the impact of participation in the National Student Exchange program. One aspect was this survey, asking about the effect of NSE participation in various area, academic and non-academic.

Who was asked to complete survey:

University of Utah students who participated in the NSE program between the academic years of 2006-2007 and 2009-2010.

Response Rate: 28.0% (21 of 75)

Administration Type: StudentVoice e-mail

Summary of Key Findings:

- 93% of respondents were Utah residents at the time of their Exchange.
- School of Business and College of Humanities sent the highest number of participants.
- NSE did not impact students' choice of majors, but did impact choice of career.

Actions Taken:

More marketing will be targeted towards other colleges on campus and on out-of-state students.

Which Student Affairs goals does this project align with?

3, 5, and 6
