

## **Union Services Survey: Students and Staff**

### **Key Findings:**

Students and staff have different priorities for what services are needed in the Union.

### **Actions Taken**

On the building side, we are making changes based on information we got from the surveys. How we go about renovating space, what the renovation priorities are and what funding we ask for in the future are all based in the survey information. We are currently looking at the old Pharmacy space and using the survey information to help determine the best fit for that space and for our students.
