Fitness Program Evaluation FA09

Summary of Key Findings:
- We have 1 instructor who, in the eyes of her class participants, stands far and above the rest of the instructors.
- We have 1 instructor who is below the standard that we would like associated with our program.
- The new FITPASS program is a huge success! It is perceived as a great value and is very user friendly – students have limited $$ and limited/restricted/always changing schedules.
- The majority of the students participating in our program are graduate students.

Actions Taken:
We added more classes in the early a.m. and on Friday evening as requested in the survey. We continued with the FITPASS program.
