Goal and desired outcomes of the program or service:
To create high quality Campus Early Childhood Programs by providing the teaching staff with the education and tools they need to succeed. Giving Early Childhood Program directors the feedback necessary to allow them to create an atmosphere that keeps employee morale high.

Goal of assessment:
To gather staff opinions about working in the Campus Early Childhood Programs so that we will know what is working and what isn't.

Population sampled:
Staff working for the Campus Early Childhood Programs.

Response Rate: 33.3% (14 of 42)
Administration Type: E-mail invitation through Campus Labs

Summary of Key Findings
Of the staff that participated in the survey, 93% responded positively when asked to describe the climate of their Child Care Center as a place to work. Most respondents (88%) gave positive feedback on their child care program, including areas for improvement such as “additional training.” When asked if they are encouraged to be creative and innovative in their work, 93% of the respondents stated “often” or “always.” All respondents answered “always” or “often” when asked if there are sufficient supplies and equipment for staff to do their jobs.

Actions Taken/Planned based on the findings from this assessment:
Working with Child Care Program directors to address staff concerns, suggestions and needs.

Alignment
Student Affairs Key Activity: [still in process]
Departmental Key Activity: Administrative Oversight of the ASUU Student Child Care Program
Departmental goal this project addresses: KA 3a. Support quality, accredited and financially viable child care to best meet the needs of student families.

Departmental Key Activity: Campus-wide Program Coordination

Departmental goal this project addresses: KA 5a. Deliver campus-wide program coordination and development to departments across campus.
