Goal and desired outcomes of the program or service:
Provide evidence- and themed-based educational and prevention programs on a semester basis

Goal of assessment:
Regularly evaluate the effectiveness of outreach and preventive programs conducted on campus.

Population sampled:
Attendees of UCC Outreach Presentations (5 presentations for the 2014-2015 year).

Respondents: 63
Administration Type: Paper responses with data entry into Campus Labs

Summary of Key Findings
Evaluations were generally favorable. For example, over 90% of respondents reported that the presentation increased their knowledge both about UCC services and about how to make a referral to the UCC. Further, 96.8% of respondents felt that the presenter was effective at having a respectful approach to diversity. While important, these findings are limited in that they represent only 3.5% of the total number of outreach programs provided in 2014 – 2015.

Actions Taken/Planned based on the findings from this assessment:
Because of the low number of presentations evaluated in the 2014-2015 year, we now have developed a hard-copy Outreach Presentation Evaluation form that we plan to use for all campus outreach and preventive programs

Alignment
Student Affairs Key Activity: [still in process]

Departmental Key Activity: Provide Consultation and Mental Health Educational Services to the Campus Community

Departmental goal this project addresses: Provide campus outreach and preventive educational programs, both by request and UCC-initiated
**Student Affairs Learning Domain Connection: Health & Wellness**

*Please explain how this project connects to this Learning Domain:* Outreach and preventive educational programs on topics such as stress management and mindfulness teach students skills that enhance their ability to be academically successful and increase their repertoire of healthy coping mechanisms.

**Student Affairs Learning Domain Connection: Diversity & Inclusion**

*Please explain how this project connects to this Learning Domain:* All outreach and preventive programs conducted by the UCC endeavor to be multiculturally sensitive. Additionally, we offer specific programs on topics such as white privilege the impact of cultural issues for international students that aimed at increasing awareness and understanding of the importance of diversity in an educational setting.
